

### 3.10 Purchase Review Enquiry

This multi-screen, real-time enquiry allows users to view non-direct Manual, non-direct Special Lot trades, non-direct Odd Lot trades, direct Manual, direct Special Lot trades and direct Odd Lot trades that are alleged against them during the current trading session. (Auto-matched, Semi-Automatic Odd Lot / Special Lot and Overseas are not displayed). User can restrict the enquiry by specifying a start time and the details of trades are displayed.

Supervisor can view all trades. Trader is only presented with the trades assigned to him/her by his/her supervisor. Purchases are displayed in ascending chronological order (i.e., oldest first), with one purchase per line. The default time is "00.00". If the start time specified is later than the current time, it is taken to be last trade day. This function can be the first step for "Acknowledge Purchase" and "Reject Purchase" functions.
