

3.7 Security Wide Enquiry

This one page, real-time enquiry provides users primarily with broker order queue information required for auto-matching securities. User enters the security code. The information displayed includes the current Best Bid and Best Ask price for the security together with the Broker number of each outstanding order in the security.

To enquire on another security, just do step 3 to step 4 again; i.e., there is no need to press the ORDENQ and MARKET keys for successive security wide enquiries. The NEXT (PAGE UP) and PREVIOUS (PAGE DOWN) keys can also be used to display the next and previous valid security.

To exit from this operation, simply press the function key(s) for the next desired operation.

For Exchange's customized-keyboard:
